

Welcome to the
Wonderful World of
Apple....

Pete & Pam Computers

ORDERING INFORMATION

Orders may be placed by telephone, letter and telex. We are particularly pleased to accept customer calls in person at either of our offices. (We like to get to know our customers!)

When ordering please quote your customer identification code and as far as possible the product codes for the items you are ordering.

Orders placed in the morning will be shipped on the day of order. Orders placed before 4 p.m. can be shipped on the day of order if this is requested. We can occasionally assist in same day shipping of orders placed after this time.

CREDIT POLICY AND PAYMENT INFORMATION

If you do not have a credit account open with us, please take a moment to ask for a credit application form. All we require is the name and address of your bank and of two trading references. Accounts can take up to four weeks to set up, but this time period can be reduced if this is specifically requested. Our Credit Controller, Steve Riley, will be pleased to assist with any problems related to credit.

We are pleased to offer credit terms to qualified dealers. Our credit terms are 30 days net from date of invoice. Statements are sent out at two weekly intervals to enable you to check your current invoices paid and due. We do not expect you to pay every invoice separately in order to meet our credit terms, but do expect batched payments to be made within two weeks of the due date.

Accounts with overdue balances will be placed on credit hold. This means that no further goods will be shipped and all support and repair/warranty services withdrawn until the account is brought into order. Repeated failure to keep to our credit terms will result in the permanent loss of credit facility.

Payment may also be made by credit card (particularly useful for foreign customers). We accept payment by Visa (Barclaycard), Mastercard (Access), American Express and Diners Club.

Neither legal nor beneficial title in goods supplied passes to the buyer until payment in full has been made for the goods. Risk for the goods is passed to the buyer on delivery.

SHIPPING METHODS

United Kingdom and Northern Ireland

Shipments of under 3kg in weight are shipped via First Class Recorded Delivery.

Shipments above 3kg in weight will be shipped via Dataexpress on the UK mainland and Datapost to Northern Ireland and off-shore Islands (including the Isle of Wight and the Channel Islands), unless otherwise requested.

All shipments are fully insured by Pete and Pam and P and P Microdistributors at no further cost to our customers.

Republic of Ireland

Shipments up to 3kg in weight are sent via First Class Recorded Delivery. Above this weight shipments are sent either by Registered Mail or a method to be agreed at the time of placing the order. TNT and TRISTAR services are available to Eire, but can be expensive.

Europe and Overseas

As far as possible shipments are sent by Air Parcel Post. Larger shipments can be sent by either airfreight with the freight company of your choice or in Europe by Fast Road Services such as TNT Europe fast.

Our export sales manager, David Emmerson will be pleased to advise on the alternatives available.

RETURNING GOODS

A returns authorisation number must first be obtained from our customer service department either by telephone or letter. Returned goods must be accompanied by a copy of the original invoice relating to their purchase.
