CHALLENGE FROM THE ORIENT
Hitachi takes on the IBM PC

Whatever
your business
needs, there's
an Apple III
value-added
package to
match.

No two businesses have the same problems, that's why we've put together some very special packages, built around the versatile 256 K Apple III at the incredible new price of £2,395.

Apple III gives you superb value and big capacity in personal computing. But did you know about the even bigger value and extra power our special Apple III systems offer?

Ideal for the business user, the **Apple III Business System** which has a 256 K Apple III, Apple Dot Matrix Printer, word-processing, spread sheet software and our revolutionary special self-training packs. Price £2,995.

The **Apple III Profile system** offers the solution for users requiring extra information storage power. An Apple III with our 5 Mega-Byte Profile hard disk unit has the capacity, for example, to handle a mailing list of 32,000 names and addresses. Price £3,495. Then, for the really big applications there's the **Apple III Big Business system**, an Apple III system with 10 MegaBytes of profile storage capacity, that's approximately 4,000 sheets of A4: Price £4,950.

Apple also offers software solutions, AppleWriter word-processing, VisiCalc for numerical work such as financial planning, and Business Graphics for presenting that important information graphically.

Our trump card is **Catalyst**. Catalyst allows you to run your system with all of your data and applications software on the Profile hard disk. It allows you to move from task to task with the speed and efficiency that no other currently available microcomputer can offer. Fast operation, no floppy disks to keep track of and care for, and most important, it is simplicity itself to use.

Apple III data interchange capability allows you to use information generated with one application program, in others. For example, when writing a memo using AppleWriter, you can include a financial model generated by VisiCalc and mail the memo to a list of addressees generated by QuickFile, Apple III's very own filing system.

All of these packages are available now. Talk to your Apple dealer about your business needs or send the coupon for further details – no microcomputer has more programs* ... ranging from personnel records, statutory sick pay and payroll, to accounts, to capital evaluation and Critical Path analysis.

The personal computer

*Apple III will also run many Apple II programs and has CP/M compatibility. Prices exclude delivery and VAT and are correct at time of going to press. Apple reserves the right to change specifications without notice. All offers subject to availability.

To: Apple Computer (UK) Limited, Eastman Way, Hemel Hempstead, Herts. HP2 4BR FREEPOST.
