I'll never forget the day my folks brought home our computer. "What a sound investment for the family, dear," said Mom. "What a tax write-off, honey," said Dad. "Wow! My very own computer!" said I, because I knew that I'd be the only member of the family who'd actually use it. But, of course, that was before CBS Software came along. These programs let every member of the family get into the act.

Nowadays, with early learning programs from CBS Software, even my little sister is using the computer. She's having fun with her Sesame Street™ friends and practicing important skills that will help her once she starts school. And with EasyKey™ programs like Astro-Grover™★ and Sesame Street Letter-Go-Round,™▲ she doesn't have to struggle with the complexities of a keyboard. Now if she'd just stop telling Mom everytime I eat donuts before dinner...

THE EASYKEY™ KEYBOARD OVERLAY
The simple way to help little fingers have fun learning. It lets children play these games using simple words and colorful pictures.

ASTRO-GROVER™★

A counting, adding and subtracting game from Children's Television Workshop. Children help GROVER work with numbers in five different ways as they play with the friendly Zips from the planet Zap!

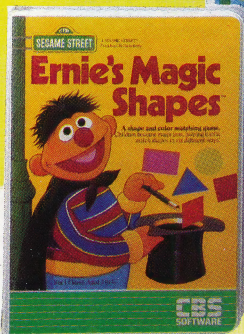

SESAME STREET™ LETTER-GO-ROUND™▲

A letter recognition and simple spelling game developed by Children's Television Workshop. Children take a spin on the Letter-Go-Round and match letters in six different ways!

BIG BIRD'S FUNHOUSE™★

A game of memory, matching and sequencing developed by Children's Television Workshop. Children play Hide-and-Seek and help BIG BIRD find his SESAME STREET friends in five different ways!

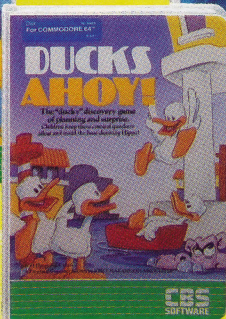

ERNIE'S MAGIC SHAPES™★

A shape and color matching game from Children's Television Workshop. Children become magicians, helping ERNIE match shapes in six different ways and improving visual discrimination skills!

BIG BIRD'S SPECIAL DELIVERY™★

An object recognition and classification game from Children's Television Workshop. Children help BIG BIRD and LITTLE BIRD deliver packages to the right stores.

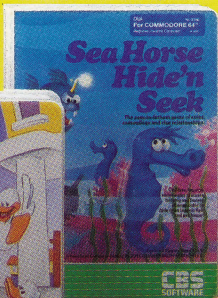

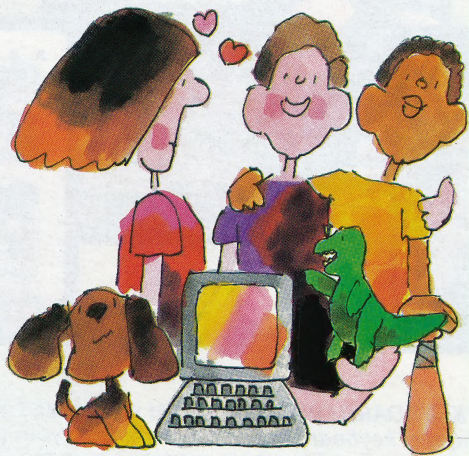

DUCKS AHOY!™

The "ducky" discovery game of planning and surprise from Joyce Hakansson Associates. Children practice planning and predicting outcomes as they keep dizzy ducks afloat and avoid the boat-dunking Hippo!

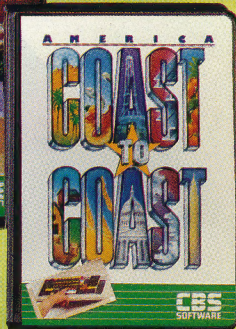

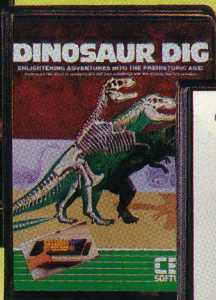

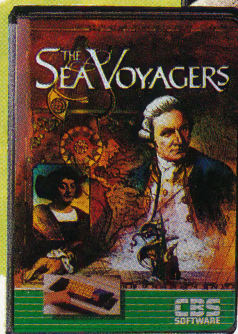

SEA HORSE HIDE'N SEEK™

The easy-to-fathom game of color, camouflage and size relationships from Joyce Hakansson Associates. Children become underwater rescuers, helping sea horses change color to hide from lagoon-fish and get home safely!

Of course, CBS Software also makes exciting and challenging game programs for me and my friends. But there's an important difference. Fun programs like Dinosaur Dig™ and America Coast to Coast™ have taught me so much about math, science, history and music that now my friends call me "Wizard," my teacher calls me "Einstein" and Marcie Jenkins calls me "Cutie-Pie." Give me a break!

THE EASYKEY™ KEYBOARD OVERLAY
Fits over your computer keyboard to become the program menu! Quickly select options and answer questions without any computer or typing experience.

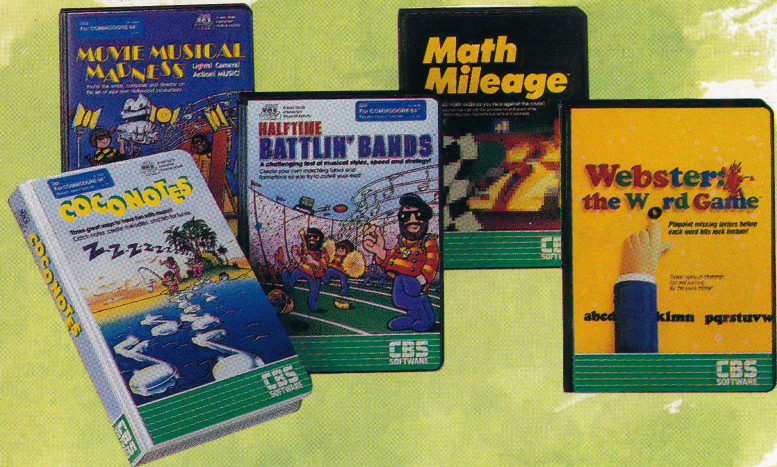

THE SEA VOYAGERS™
Journey back to the Age of Exploration! Four dynamic learning activities feature colorful, animated graphics as you relive the heroic sailing adventures of 30 legendary explorers including Columbus, Magellan and Pizarro.

INTERPLANETARY PILOT™
The space flight simulator that lets you fly to the moon and beyond! Master your cockpit controls to stay on course and land on Mars, Venus, or one of 13

other planets and moons including the Sun! Drop off your payload and pick up supplies from the Space Colony before taking off for the next outpost!

DINOSAUR DIG™
Explore the lost world of dinosaurs and test your knowledge with five exciting learning activities. See where dinosaurs lived, what they looked like and investigate why they became extinct.

AMERICA COAST TO COAST™
Five new ways to rediscover America! Improve your knowledge of U.S. geography and history as you travel to each of the 50 states and survey names, capitals, sizes, mottos and selected industries.

COCO NOTES™

Three great ways to have fun with music! Create your own musical compositions in this cool trio of be-bop games featuring those tropical tune-smiths, the Jazz Scats!

MOVIE MUSICAL MADNESS™

Lights! Camera! Action! Music! You're the writer, composer and director on the set of your own Hollywood production starring the Jazz Scats. *You* set the scene, *you* choose the stars and *you* compose the score!

HALFTIME BATTLIN' BANDS™

A challenging test of musical styles, speed and strategy! With the help of the

Jazz Scats, you stage your own halftime show, trying to slip up your opponent as you create your own marching tunes and band formations.

MATH MILEAGE™

Build basic math skills as you race against the clock! A colorful road rally that reinforces math facts and provides practice in estimation as up to four players steer their cars along a fork-filled road to a number goal.

WEBSTER: THE WORD GAME™

Pinpoint missing letters before each word hits rock bottom! Seven levels of fun, excitement and learning for the entire family. Helps kids become familiar with spelling patterns.

Yes, gone are the days when I could spend all day playing video games all by myself. To succeed at CBS Software activities like Weather Tamers™▲ and The Argos Expedition™▲ you have to work as a team! And with Dream House™, everybody including the dog can get into the act of designing homes of their own, from layout to landscape. Sure it's fun, but if the guys ever find out about this, I'm finished!

DREAM HOUSE™

Create your very own homes from layout to landscape! Four different home styles to remodel from the ground up, as often as you like. Design exteriors, and decorate and furnish rooms with animated objects at the touch of a button.

THE ARGOS EXPEDITION™ ▲

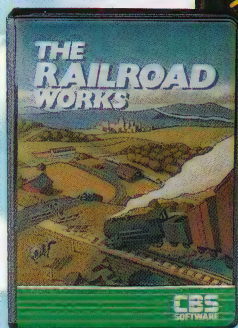

Work together to explore the Final Frontier on a quest for alien artifacts! A unique game of group interaction from Children's Television Workshop. Each voyage is a new adventure.

WEATHER TAMERS™ ▲

The enlightening game of weather control from Children's Television Workshop. Exploring, experimenting and planning ahead help you and your fellow Tamers master the forces of nature.

FLEET FEET™ ▲

The race that runs on swift thinking and fancy footwork! Speed your team of feet through an out-of-this-world obstacle course to discover the most ingenious route to victory! Developed by Children's Television Workshop, of course.

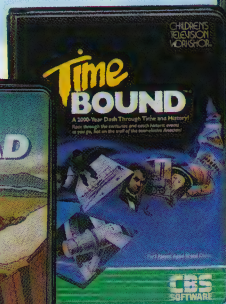

THE RAILROAD WORKS™

Build a completely operational model railroad system across 12 screens, track by track! Choose steam-driven Iron Horses or diesel Powerhouses, and add scenic terrain. Then fine tune your layout to provide the most profitable service to trackside businesses like stockyards and post offices. It's *your* railroad company!

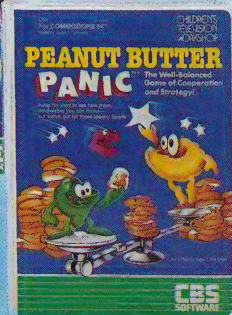

TIMEBOUND™▲

A 2000-year dash through time and history developed by Children's Television Workshop. Race through the centuries and catch historic events as you go.

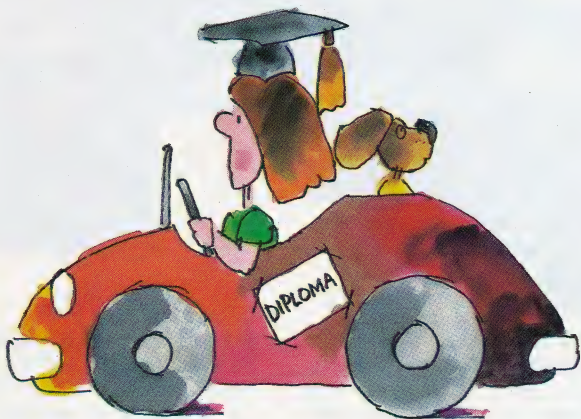

LIGHT-WAVES™▲

Adventures in thinking through your own worlds of light, music and energy! In Light-Waves you create and constantly change the playfield and the rules of the game. From Children's Television Workshop.

PEANUT BUTTER PANIC™▲

The well-balanced game of cooperation and strategy from Children's Television Workshop. Jump for stars to make peanut butter sandwiches—but watch out for Snarfs! Sharing information as well as sandwiches is the recipe for success.

CBS Software's at-home review and test preparation programs have really helped my big sister's social life. With the help of Mastering the SAT[†], she's already been able to get into the college of her choice. And CBS Software's Success With Math[™] series has saved Mom and Dad so much money in private math tutors for me that they went out and bought her a car when she passed her driver's test, thanks to Keys to Responsible Driving[™]!

MASTERING THE SAT†

A comprehensive, self-paced preparation course for the Scholastic Aptitude Test†. Developed in cooperation with the National Association of Secondary School Principals. Covers all areas of SAT: Verbal, Math and Standard Written English. Emphasizes principles behind each question and includes test-taking strategies.

MASTERING THE GRE†

Self-paced program of review and instruction to aid students in preparation for the Graduate Record Examination†. Includes simulated test, guide to test strategy and comprehensive, menu-driven skill development exercises in all areas of exam: Verbal, Quantitative and Analytical.

MASTERING THE COLLEGE BOARD† ACHIEVEMENT TESTS: ENGLISH COMPOSITION

Comprehensive, self-paced test preparation and review of the fundamentals of Standard Written English. Over 1,000 simulated questions offer practice in rewriting sentences, phrasing, editing, grammar and sentence structure.

MASTERING THE ACT

Comprehensive, self-paced coverage of all areas of the American College Testing Assessment: English, Math, Social Studies and Natural Sciences. Developed in cooperation with the National Association of Secondary School Principals. Includes test-taking strategies.

SUCCESS WITH MATH™ SERIES

Comprehensive, self-paced math tutorials that go beyond the benefits of mere drill exercises alone. Each program works with the student every step of the way. Problems are generated at random and students are directed to the source of all errors before continuing.

ADDITION AND SUBTRACTION

MULTIPLICATION AND DIVISION

FRACTIONS: ADDITION AND SUBTRACTION

FRACTIONS: MULTIPLICATION AND DIVISION

DECIMALS: ADDITION AND SUBTRACTION

DECIMALS: MULTIPLICATION AND DIVISION

LINEAR EQUATIONS

QUADRATIC EQUATIONS

T. REX™

The dinosaur survival adventure. As the prehistoric "King of the Dinosaurs," match your survival skills and knowledge against the laws of nature in this exciting computer simulation.

KEYS TO RESPONSIBLE DRIVING™

A self-contained, self-paced program of instruction and simulation designed to help you become a safe, responsible and licensed driver. Reviewed by national safety organizations and leading insurance companies.

THE HONEY FACTORY™

Journey into the world of the beehive! Using nature's resources and scientific concepts, direct and expand your own honey bee colony in this exciting natural history simulation.

Before, it seemed like my parents hardly ever saw each other. Mom was always stuck in some meeting at work. Dad was always stuck in traffic. Thanks to CBS Software's Managing for Success™ series, not only have they been able to find more time for each other and us, but they've been able to catch up on their reading, especially since completing MicroSpeedRead.™ And now they're so organized that Dad can usually leave work before rush hour and pick up Mom at her office. And where do they go as soon as they get home? Straight to my computer, of course!

MICROSPEEDREAD™

So little time and so much to read!

- MicroSpeedRead puts you back in control of your time, making you a dynamic, flexible and more productive reader.
- Provides reinforcement, encouragement and feedback through classroom- and board room-tested strategies.

MANAGING FOR SUCCESS™ SERIES

- Become a better manager with the business- and classroom-tested instruction offered in this innovative series of five programs developed by Thoughtware®, leaders in the field of computer-assisted management training. Self-paced and interactive, these programs each track up to five users and utilize case studies as you gain practice and experience in managing at work and at home.

PERSONAL DEVELOPMENT
DELEGATION, TIME & TASKS

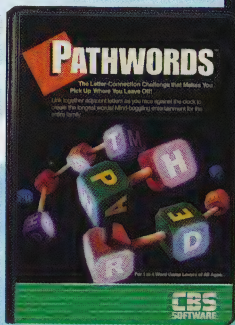

PEOPLE MANAGEMENT

CAREER PLANNING

PROBLEM SOLVING, STRESS & CONFLICT

CBS Software's family entertainment programs have really brought my family together. With Adventure Master,[™] Dad's creating an adventure game designed to drive me and my big sister nuts. Mom thinks she's Miss Marple since solving a case in Murder By The Dozen.[™] With Forecast![™] my little sister is learning the answers to the great unsolved questions of being a 5-year old, like "Why is there sky?" And everybody wants to test their knowledge and quick thinking with Quink![™] Maybe I can't get the computer all to myself as much as I used to, but at least when I play with the family, I still always win!

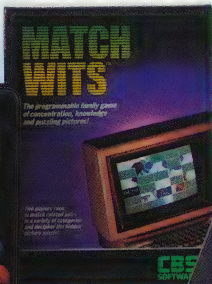

PATHWORDS™

The letter-connection challenge that makes you pick up where you leave off! Link together adjacent letters as you race against the clock to create the longest words.

MATCH-WITS™

Concentration, knowledge and memory involve family members as both players and creators. Match pairs in six programmed categories to reveal a hidden puzzle. But that's only half the fun because Match-Wits lets you program your own categories, too!

MYSTERY MASTER™ SERIES

Interactive computer mystery programs.

MURDER BY THE DOZEN™

Twelve tangled webs of crime and puzzlement put your powers of logic and deduction to the test! Follow a trail of shady characters, clever deceptions and red herrings as you try to beat out your fellow detectives and discover whodunit!

FELONY!™

Something is rotten in the city of Huxley. A crime wave is driving you and the rest of the Police Force batty. Thieves, kidnapers, terrorists and murderers are running rampant! And the Chief wants your badge if you can't stop it! It's just another day for a cop on the beat!

QUINK™

The family game of quick thinking and quick wits! As quickly as you can, link together related names, places, events and facts as you eliminate the ones that don't belong. The better you become at Quink, the faster you have to think! Over 4,500 bits of information in over 150 subject areas.

ADVENTURE MASTER™

Adventure Master puts the power into your hands to plan, write and illustrate your own prose adventure games. Features three professionally-authored adventures including two by Newbery Award winning writer of young adult literature, Jean Craighead George.

CHARLES GOREN: LEARNING BRIDGE MADE EASY™

Hold hands with the Master as you learn how to play bridge or simply improve your game at your own pace. This endlessly patient tutor provides sections on bidding and the play of the hand. Quizzes and evaluations clarify and encourage.

FORECAST!™

The at-home weather station that lets you predict tomorrow's weather with amazing accuracy! Master the scientific methods used by the pros to track storm fronts, chart patterns and stay weather-wise.

*CBS Software, my mother thanks you, my father thanks
you, my sisters thank you, the dog thanks you, and
I (reluctantly) thank you!*
