

PRINT 'N WEAR !™ PERSONAL HEAT TRANSFER

— For Use with Dot Matrix or Thermal Ribbon Printers —

A. When using commercial heat press, place opposite side of this transfer onto fabric and press 20 seconds at 350°. B. When using hand iron, press as follows:

1. HOW TO PREPARE - YOU WILL NEED THE FOLLOWING ITEMS.

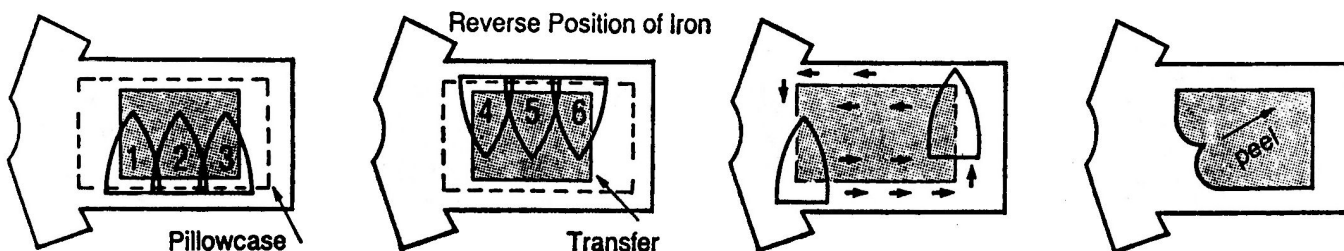

*Transfer *Garment consisting of white or light colored cotton, poly, or blend of both. *Iron (Pre-heated on "cotton" setting for 8 minutes.) **DO NOT USE STEAM.** *Ironing surface-pillowcase (folded in half) on a **GLASS OR FORMICA COUNTER TOP ONLY. DO NOT** Use Ironing Board. Pillowcase must be smooth and free of ridges.

2. HOW TO PRESS

*Cut away blank, unprinted area of transfer. *Place garment onto pillowcase, centering area to be transferred directly over pillowcase. *Place transfer (color side down) onto garment, making certain all four edges of transfer are also centered over pillowcase. *Press iron firmly in each of six (6) positions (as illustrated) for 12 seconds each. Use two hands and body pressure when pressing.

TRANSFER MUST BE REMOVED WHILE HOT!

*Immediately reheat entire surface - by making three complete circles with iron, being certain to cover all edges and corners. (as illustrated) Beginning in one corner, as illustrated, peel transfer from fabric, while hot *Smooth garment and allow to cool for 10 seconds.

3. HOW TO WASH

1. Turn garment inside out.
2. DO NOT use bleach.
3. Wash in cool-warm water only.
4. Dry at cool setting.
5. DO NOT iron garment.

This transfer is of the highest quality; however the supplier cannot assume the responsibility for improper adhesion technique.
