

ON THREE Disk Of the Month #10

Welcome to **ON THREE's** Disk Of the Month #10. The enclosed disk contains programs taken from the pages of ON THREE Magazine. You can use the programs by simply starting up your Apple /// with either side of the DOM #10 disk. You will be presented with a menu where you can select the various programs on the disk. To select a program from the front side menu, simply type a number from 1-2. In a moment the program will be loaded from disk and will be displayed on your screen.

Option 1 is the **Stereo Spiral** graphics demo. This program will display a variety of 3-D spiral pattern on the graphics screen of your Apple ///. To exit press **CONTROL-C**. Then type **RUN HELLO** and press **RETURN**. In a moment the DOM Main Menu will be displayed.

Option 2 is the **Football Pool** program. This program allows you to keep track of the office football pools on your Apple ///. After exiting the program, return to the DOM Main Menu by typing **RUN HELLO** and press **RETURN**.

All of these programs can be run from either the built-in floppy disk or a hard disk. To modify them to run from a hard disk, do the following:

- 1) Make a subdirectory on the hard disk to hold the files.
- 2) Copy all of the files from the diskette the subdirectory except
SOS.KERNEL, SOS.DRIVER and SOS.INTERP.
- 3) Create a menu item in either Catalyst or Selector per the respective manuals instructions regarding adding a Basic program. Setup the menu item to point to the program **HELLO** in the subdirectory. Make sure to set the prefix to point to the subdirectory.

To select a program from the back side of the disk, simply startup your Apple /// with the back side of DOM #10. You will be presented with the Character set editor program.

All of these programs can be run from either the built-in floppy disk or a hard disk. To modify them to run from a hard disk, do the following:

- 1) Make a subdirectory on the hard disk to hold the files.
- 2) Copy all of the files from the diskette the subdirectory except
SOS.KERNEL, SOS.DRIVER and SOS.INTERP.
- 3) Create a menu item in either Catalyst or Selector per the respective manuals instructions regarding adding a Pascal program. Setup the menu item to point to the program **SYSTEM.STARTUP** in the subdirectory. Make sure to set the prefix to point to the subdirectory.
